

SARS-CoV-2 or the novel coronavirus (COVID-19) has seemingly emerged as the most pressing challenge confronting the world today, its complex realities having rapidly disrupted (indeed, having pervasively ensconced themselves at the centre of) diplomacy and global affairs.

Are you interested in acquiring substantive knowledge and real-world insight on what the fallout from the COVID-19 pandemic may mean for the Caribbean's ability to advance on the 2030 Agenda for Sustainable Development, a 15-year plan to achieve the 17 Sustainable Development Goals (SDGs) that United Nations Member States signed off on in 2015? Are you seeking information on Agenda 2030-related opportunities to 'build back better', taking account of COVID-19-related setbacks? Do you want to gain a broader perspective on UN programming/partnership (re-)calibrations in the region in the age of COVID-19, against the backdrop of the Decade of Action? In this regard, are you keen to be apprised of the Caribbean's post-COVID-19 recovery planning/policy trajectory?
