Prime Ministerial Debate 2020

- For Immediate Release -

The Belize Chamber of Commerce and Industry (BCCI), Galen University and RSV Media Limited (Love FM/TV) (hereafter “The Organizers”) have partnered to plan the Prime Ministerial Debate 2020 under the theme “**Achieving Sustainable Development in Belize**”.

To date, the Organizers have formally invited the leaders of the four contesting parties (United Democratic Party, the Peoples’ United Party, the Belize Progressive Party, and the Belize People’s Front) and have received positive responses thus far. The present responses are indeed encouraging as they demonstrate that the political leaders are taking seriously their responsibility to inform the electorate of their plans for advancing Belize’s sustainable development and a range of socio-economic themes.

The event is designed to allow all political leaders to constructively debate their plans, agendas, and strategies. It is the Organizers’ view that more than at any other point in our young country’s history, these discussions are especially crucial.

While at the time of writing this press release the official date of the 2020 General Elections has not formally been announced, the planning committee has agreed that the event will be **scheduled for a date two weeks prior to Election Day.**

The Organizers commit to keeping all stakeholders informed as further details become available.
